Qualification Specification

About Us

Welcome to 1st4sport, established in 2000, 1st4sport are an industry specialist recognised awarding organisation regulated in England by the Office of the Qualifications and Examinations Regulator (Ofqual), in Wales by Qualifications Wales, and in Northern Ireland by the Council for the Curriculum, Examination and Assessment (CCEA) Regulation.

Serving the needs of the sport, physical activity and active leisure industry; our niche status is emphasised through our accomplished people, network of esteemed industry partnerships and our culture of excellence. We have an outstanding reputation; evidenced through the loyalty we receive from our trusted partners, recognised centres and most importantly our learners.

We have a proven track record; offering of valid, value-added, educational solutions and services and outstanding customer care. Our offer includes sector specific qualifications and pathways, and a range of relevant high-performing educational services; underpinned by leading digital solutions. The majority of these are developed and deployed in partnership with governing bodies of sport and other sector specific professional organisations. More than any other awarding organisation, our knowledge of the industry and our continuous cross-sector network enables us to understand the direction of our sector.

Our involvement in shaping our sector has been significant and we continue to be the awarding organisation that partner and representative organisations turn to for guidance on the direction of travel, as appropriate to the needs of our partners, centres, industry employers and learners.

Our Mission: To deliver excellent educational solutions and value-added services to sport, physical activity and the active leisure industry.

Our Direction: We aim to support the ongoing professionalisation of our industry; supporting employment, growth, sustainability and success. We embrace performance, participation and health agendas. Our objective is to continue to support our respected partners, providers and learners.

Learning Outcome: 4. know how to contribute to developing and maintaining normal and emergency operating procedures

Assessment Criteria The learner can:	Indicative Delivery Content
4.1 explain the importance of safety procedures to manage risks in own area of responsibility	
4.2 explain why it is important to involve as many people as possible in developing such safety procedures and how to do so	
4.3 explain how to develop safety procedures which are consistent with a risk assessment	
4.4 explain how to identify the circumstances in which appropriate authorities would have to be informed about lack of effective risk management	
4.5 summarise who are the appropriate authorities and how to inform them about lack of effective risk management	
4.6 evaluate effective methods of promoting safety to participants and staff	
4.7 explain how to make sure participants and staff know and adhere to the relevant safety requirements	

4.8 explain why participants and colleagues should be encouraged to take responsibility for their own safety	
4.9 summarise the importance of reviewing and adapting procedures on an ongoing basis	
4.10 explain the importance of monitoring the implementation of safety procedures and of intervening promptly when these are not being followed	
4.11 explain why participants and staff should be actively encouraged to provide feedback on risks, hazards and ground rules	
4.12 explain how to encourage such feedback effectively	
4.13 explain how to use participant and staff feedback to improve ground rules	
4.14 classify the types of incidents and emergencies which are likely to occur and how to deal with these	
4.15 explain how to ensure that other team members respond effectively to incidents and emergencies	
4.16 explain how to decide what type of assistance is appropriate to the incident and emergency and how to summon such assistance	
4.17 summarise the information which the people providing assistance will need to know	
4.18 evaluate own level of competence and responsibility in relation to an emergency or incident	
4.19 explain how to record and report incidents and emergencies	

4.20 summarise how to recommend new approaches which might prevent emergencies and incidents being repeated

Learning Outcome: 5. be able to contribute to developing and maintaining normal and emergency operating procedures

Assessment Criteria The learner can:	Indicative Delivery Content
5.1 put in place the procedures to keep risks to an acceptable level	When contributing to developing and maintaining normal and emergency operating procedures, the learner must cover: both of the following types: a procedures 1 normal operating procedures 2 emergency operating procedures all of the following types: b risks 1 to health 2 to safety 3 to security and three of the following types c relevant people 1 colleagues and team members 2 participants 3 spectators 4 clients 5 facility owners

Unit Title	Promote the conservation of the environment
Unit Aim	This unit covers the knowledge and competence that the learner needs to promote the conservation of the environment.
Unique Unit Number	M/503/0940
Unit Assessment Method(s)	- Coursework - Portfolio of Evidence
Assessment Specification	Learning Outcomes 1, 2, 4 and 6: These can be assessed by: (i) professional discussion (ii) oral questions and answers (iii) questions requiring written answers. Learning Outcomes 3 and 5 must be assessed using workplace evidence generated when the learner is promoting the conservation of the environment. Learning Outcome 3: When contributing to and implementing codes of practice for using the environment, the learner must cover two of the following types of good practice and guidance: (i) national (ii) local (iii) organisational, and all of the following types of impact (i) damage (ii) pollution (iii) disturbance. Learning Outcome 5: When educating participants on the impact of activities on the environment, the learner must cover one of the following types of participants: (i) adults (ii) children (iii) young people (iv) people with particular needs.

Learning Outcome: 1. know how to promote the conservation of the environment	
Assessment Criteria	Indicative Delivery Content
The learner can:	
1.1 explain the importance of environmental protection and how codes can contribute to this	
1.2 summarise current good practice at the national, local and organisational level	
1.3 summarise the effects of all the types of impact listed in the range	

Learning Outcome: 2. know how to contribute to and implement codes of practice for using the environment

Assessment Criteria The learner can:	Indicative Delivery Content
2.1 summarise the current codes in use and how to contribute to their development	
2.2 explain the importance of all staff for whom the candidate is responsible understanding codes of practice and agreements	
2.3 explain how to monitor and control activities to ensure that they conform to codes of practice	
2.4 explain how to monitor and evaluate the impact of activities on sites	
2.5 summarise the ways in which the natural environment can be improved in a way sympathetic to the area and surroundings	
2.6 explain the reporting procedures to follow	

Learning Outcome: 3. be able to contribute to and implement codes of practice for using the environment

Assessment Criteria The learner can:	Indicative Delivery Content
3.1 make contributions to a code of practice which are based on current good practice and guidance	When contributing to and implementing codes of practice for using the environment, the learner must cover: two of the following types: a good practice and guidance 1 national 2 local 3 organisational and all of the following types: b impact 1 damage 2 pollution 3 disturbance

<p>3.2 make sure that all staff in own area of responsibility know and understand the code of practice and agreements</p>	<p>When contributing to and implementing codes of practice for using the environment, the learner must cover: two of the following types: a good practice and guidance 1 national 2 local 3 organisational and all of the following types: b impact 1 damage 2 pollution 3 disturbance</p>
<p>3.3 make sure that all activities under own control conform to the code of practice and agreements</p>	<p>When contributing to and implementing codes of practice for using the environment, the learner must cover: two of the following types: a good practice and guidance 1 national 2 local 3 organisational and all of the following types: b impact 1 damage 2 pollution 3 disturbance</p>

Learning Outcome: 4. know how to educate participants on the impact of activities on the environment

Assessment Criteria The learner can:	Indicative Delivery Content
<p>4.1 explain the importance of participants understanding the codes of practice and agreements about the use of sites</p>	
<p>4.2 explain how to check and confirm participants' understanding</p>	
<p>4.3 summarise measures which can be taken to minimise environmental impact and how to explain these to participants</p>	
<p>4.4 explain how to identify vulnerable areas of the site and how to ensure that the participants know about these</p>	
<p>4.5 explain the importance of providing a good role model in terms of environmental practice and how to do so</p>	

Learning Outcome: 5. be able to educate participants on the impact of activities on the environment

Assessment Criteria The learner can:	Indicative Delivery Content

<p>5.1 ensure the participants understand the current codes of practice and agreements for the site they will be using</p>	<p>When educating participants on the impact of activities on the environment, the learner must cover: one of the following types: a participants 1 adults 2 children 3 young people 4 people with particular needs and all of the following types: b impact 1 damage 2 pollution 3 disturbance</p>
<p>5.2 ensure the participants understand the impact which could be caused to the site</p>	<p>When educating participants on the impact of activities on the environment, the learner must cover: one of the following types: a participants 1 adults 2 children 3 young people 4 people with particular needs and all of the following types: b impact 1 damage 2 pollution 3 disturbance</p>
<p>5.3 ensure the participants understand how impact to the site can be kept to a minimum</p>	<p>When educating participants on the impact of activities on the environment, the learner must cover: one of the following types: a participants 1 adults 2 children 3 young people 4 people with particular needs and all of the following types: b impact 1 damage 2 pollution 3 disturbance</p>

<p>5.4 draw the participants' attention to vulnerable areas of the site and show how these areas should be treated</p>	<p>When educating participants on the impact of activities on the environment, the learner must cover: one of the following types: a participants 1 adults 2 children 3 young people 4 people with particular needs and all of the following types: b impact 1 damage 2 pollution 3 disturbance</p>
<p>5.5 work in a way which provides a model of good practice to the participants on how to treat the site</p>	<p>When educating participants on the impact of activities on the environment, the learner must cover: one of the following types: a participants 1 adults 2 children 3 young people 4 people with particular needs and all of the following types: b impact 1 damage 2 pollution 3 disturbance</p>

Unit Title	Establish and maintain effective working relationships in the outdoors
Unit Aim	This unit covers the knowledge and competence that the learner needs to establish and maintain effective working relationships in the outdoors.
Unique Unit Number	T/503/0910
Unit Assessment Method(s)	- Coursework - Portfolio of Evidence
Assessment Specification	<p>Learning Outcomes 1,3 and 5 Assessed by professional discussion oral questions written answers.</p> <p>LO 2, 4 and 6 using evidence generated when the learner is establishing and maintaining effective working relationships in the outdoors.</p> <p>LO 2: When establishing and maintaining effective relationships they must cover: 1 of the following types adults, children and young people, people with challenging behaviour, participants with particular needs</p> <p>LO 4: When working effectively with clients and colleagues, they must cover 3 of the following types more senior staff, colleagues at the same level, less experienced staff 3 of the following types freelance colleagues, colleagues from other organisations, client representatives</p> <p>LO 6: When delegating work, monitoring and support colleagues, they must cover 3 of the following types more senior staff, colleagues at the same level, less experienced staff, freelance colleagues, colleagues from other organisations, client representatives</p>

Learning Outcome: 1. know how to establish and maintain effective relationships with participants and colleagues

Assessment Criteria	Indicative Delivery Content
The learner can:	
1.1 summarise relevant legal and professional requirements and codes of practice including those covering working with children	
1.2 explain the importance of effective working relationships with participants and colleagues	

1.3 explain how to establish an effective rapport with participants and colleagues	
1.4 explain why it is important for participants and colleagues to know and understand own role and responsibilities	
1.5 clarify why trust, openness and honesty are important when working with participants and colleagues and give examples of when this is important	
1.6 explain how to encourage and motivate others and build their self-confidence and why this is important for both participants and colleagues	
1.7 summarise the importance of effective communication with participants and colleagues	
1.8 differentiate between different communication skills	
1.9 summarise types of information about participants and colleagues that should be treated confidentially and why this is important	
1.10 evaluate own preferred style of working with others and why it is important to be able to adopt different styles according to different situations and needs	
1.11 summarise the types of physical and emotional limits that apply to participants and colleagues, how to recognise when people are close to their limits and how to respond in these situations	
1.12 summarise the types of diversity likely to be encountered when working with participants and colleagues	
1.13 explain why diversity - amongst participants and colleagues - is important and should be respected and built on	

1.14 compare and contrast types of discrimination that may happen and how to challenge these effectively	
1.15 summarise types of conflict likely to be encountered when working with participants and colleagues, and how to deal with these correctly	
1.16 summarise the ethical and value-based guidelines to be followed when working with participants and colleagues	

Learning Outcome: 2. be able to establish and maintain effective working relationships with participants and colleagues

Assessment Criteria The learner can:	Indicative Delivery Content
2.1 establish and maintain an effective rapport	When establishing and maintaining effective relationships with participants and colleagues, the learner must cover: one of the following types: a participants and colleagues 1 adults 2 children and young people a participants and colleagues (cont) 3 people with challenging behaviour 4 participants with particular needs in relation to the activity
2.2 share own enthusiasm for the outdoors with others and encourage them to appreciate the outdoor environment and their place within it	When establishing and maintaining effective relationships with participants and colleagues, the learner must cover: one of the following types: a participants and colleagues 1 adults 2 children and young people a participants and colleagues (cont) 3 people with challenging behaviour 4 participants with particular needs in relation to the activity
2.3 encourage trust, openness and honesty	When establishing and maintaining effective relationships with participants and colleagues, the learner must cover: one of the following types: a participants and colleagues 1 adults 2 children and young people a participants and colleagues (cont) 3 people with challenging behaviour 4 participants with particular needs in relation to the activity

<p>2.8 value diversity, challenge discrimination and encourage inclusiveness</p>	<p>When establishing and maintaining effective relationships with participants and colleagues, the learner must cover: one of the following types: a participants and colleagues 1 adults 2 children and young people a participants and colleagues (cont) 3 people with challenging behaviour 4 participants with particular needs in relation to the activity</p>

2.9 deal with conflict positively and according to procedures	When establishing and maintaining effective relationships with participants and colleagues, the learner must cover: one of the following types: a participants and colleagues 1 adults 2 children and young people a participants and colleagues (cont) 3 people with challenging behaviour 4 participants with particular needs in relation to the activity
2.10 follow ethical and value-based guidelines	When establishing and maintaining effective relationships with participants and colleagues, the learner must cover: one of the following types: a participants and colleagues 1 adults 2 children and young people a participants and colleagues (cont) 3 people with challenging behaviour 4 participants with particular needs in relation to the activity

Learning Outcome: 3. know how to work effectively with clients and colleagues

Assessment Criteria The learner can:	Indicative Delivery Content
3.1 summarise the potential range of client and colleagues worked with	
3.2 summarise the types of organisations that may benefit from own work and how to identify and make contact with these	
3.3 explain why it is important to project a positive image and how to do so	
3.4 explain why it is important to negotiate and agree common objectives	
3.5 differentiate between different negotiation skills	
3.6 explain why it is important to plan with colleagues and agree individual roles	
3.7 characterise different team roles and how to work effectively as a team member	

3.8 explain why it is important to recognise when help and support are needed in own work, and how to identify appropriate sources of help and support	
3.9 explain how to identify types of situations in which team plans may need to be adapted	
3.10 explain why it is important to adapt team plans when necessary, and how to negotiate and agree changes	
3.11 summarise types of differences encountered in a team - for example, different strengths and weaknesses, different qualities, perspectives, experiences and ways of working - and why these are important	
3.12 explain how to take advantage of difference and build on it to forge effective team working	
3.13 explain why it is important to review aspects of work with colleagues	
3.14 explain how to create and use opportunities for review	
3.15 explain why it is important both to give and receive honest and constructive feedback	
3.16 examine how reviews with clients and colleagues can be used to improve own working	

Learning Outcome: 4. be able to work effectively with clients and colleagues

Assessment Criteria	Indicative Delivery Content

Learning Outcome: 1. know how to design outdoor recreation programmes

Assessment Criteria	Indicative Delivery Content
The learner can:	
1.1 summarise relevant health and safety legislation, including that covering activity centres	
1.2 explain organisational procedures and requirements	
1.3 explain the principles of the duty of care	
1.4 define 'health' including the meaning of emotional/psychological health	
1.5 interpret activity centre licensing regulations and equipment manufacturers' guidelines	
1.6 summarise technical knowledge, e.g. national governing body guidance relating to activities	
1.7 explain relevant operating procedures regarding safety	
1.8 compare and contrast the types of contingencies which are likely to occur: weather, accident and emergency, forced changes and how to plan for these	
1.9 explain incidence and the effect of adverse meteorological conditions	

Learning Outcome: 2. know how to identify the recreational needs and aspirations of participants

Assessment Criteria The learner can:	Indicative Delivery Content
2.1 explain the importance of gathering information on the recreational needs and aspirations of the participants in advance of the programme	
2.2 summarise the usual recreational needs and aspirations which participants have	
2.3 explain how to identify relevant organisational, legal and governing body standards and procedures and how to access these	
2.4 summarise types of specific and unusual requests which would need to be checked with the participants and why	
2.5 explain the types of potential difficulties which may arise when seeking to meet participants' aspirations and needs	
2.6 summarise procedures to follow to resolve potential difficulties of this kind	

Learning Outcome: 3. be able to identify the recreational needs and aspirations of participants

Assessment Criteria The learner can:	Indicative Delivery Content
3.1 gather information about the needs and aspirations of the participants using organisational methods in advance of designing the programme	<p>When identifying the recreational needs and aspirations of participants, the learner must cover:</p> <p>all of the following types:</p> <ul style="list-style-type: none"> a needs and aspirations <ul style="list-style-type: none"> 1 fun and enjoyment 2 new experiences 3 adventure and challenge and two of the following types: b participants <ul style="list-style-type: none"> 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the programme

Learning Outcome: 4. know how to design an outdoor recreation programme

Assessment Criteria	Indicative Delivery Content
The learner can:	
4.1 explain how to identify published programmes, brochures, codes of practice and operating procedures	
4.2 explain how to design a range of activity programmes so that they meet the participants' needs and aspirations	
4.3 explain the importance of checking the accuracy and compatibility of the proposed programme with other related areas of the organisation	
4.4 explain the importance of talking the participants through the programme and giving them opportunities for questioning and clarification	
4.5 summarise the types of issues which participants may raise during briefings and how to deal with these	
4.6 explain the principles of customer care when negotiating programmes with participants	

Learning Outcome: 5. be able to design an outdoor recreation programme

Assessment Criteria	Indicative Delivery Content
The learner can:	
5.1 design the programme so that it meets agreed participants' needs and aspirations and organisational, legal and relevant governing body requirements	<p>When designing an outdoor recreation programme, the learner must cover:</p> <p>all of the following types:</p> <ul style="list-style-type: none"> a needs and aspirations 1 fun and enjoyment 2 new experiences 3 adventure and challenge <p>and two of the following types:</p> <ul style="list-style-type: none"> b participants 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the programme

5.5 deal with any requested changes to the programme in a spirit of quality customer care

When designing an outdoor recreation programme, the learner must cover:

all of the following types:

a needs and aspirations

1 fun and enjoyment

2 new experiences

3 adventure and challenge

and two of the following types:

b participants

1 adults

2 children and young people

3 groups whose members do not know each other

4 participants with particular needs in relation to the programme

Unit Title	Facilitate learning using outdoor development training
Unit Aim	This unit covers the knowledge and competence that the learner needs to facilitate recreation in the outdoors.
Unique Unit Number	Y/503/0933
Unit Assessment Method(s)	<ul style="list-style-type: none"> - Coursework - Portfolio of Evidence
Assessment Specification	See assessment guidance.

Learning Outcome: 1. know how to facilitate learning using outdoor development training

Assessment Criteria	Indicative Delivery Content
The learner can:	
1.1 summarise the underlying philosophy of outdoor development training, and why its principles and values are important	
1.2 explain the experiential learning cycle	
1.3 analyse the development of the whole person including affective, cognitive, physical, social and spiritual factors	
1.4 explain the meaning of group dynamics and team development	
1.5 evaluate leadership styles	
1.6 summarise the types of team development which can be achieved by outdoor programmes	
1.7 explain the meanings of adventure thresholds and misadventure, and adventures of the spirit	
1.8 compare and contrast 'facilitation' and 'instruction'	
1.9 summarise the difference between learning approaches based on gap theory and those based on human potential development	
1.10 analyse individuals, groups and organisations as foci for learning	
1.11 explain the importance of interaction between the person and the environment	

Learning Outcome: 2. know how to establish and maintain a climate conducive to achieving specified learning outcomes

Assessment Criteria The learner can:	Indicative Delivery Content
2.1 explain how to address simultaneously the needs of individuals and groups	
2.2 explain how to respond safely to the learning opportunities presented in the outdoors and use them for meeting personal and group objectives	
2.3 explain how to modify and develop planned activities	
2.4 explain how to balance the physical and emotional strength of individuals with the challenges of the outdoors	
2.5 justify when to intervene and when to hold back with individuals approaching their adventure thresholds	
2.6 explain how to receive sensitively and act on feedback	
2.7 compare and contrast motivational techniques and strategies and how to select and apply them	
2.8 compare and contrast systems of reward and praise	
2.9 explain the meaning of individual differences as a stimulus to learning	
2.10 explain how to set a positive example and role model to others	
2.11 explain how to use outdoor activities to stimulate participants to stretch their own knowledge and understanding of themselves and others	

2.12 explain how to recognise the characteristics of an effective and ineffective team	
2.13 explain how to demonstrate a systematic approach to problem solving	
2.14 explain how to shape values and attitudes without moralising	
2.15 summarise how to choose activities that lead to desired learning outcomes explain how to respond safely to the learning opportunities presented in the outdoors and use them for meeting personal and group objectives	

Learning Outcome: 3. be able to establish and maintain a climate conducive to achieving specified learning outcomes

Assessment Criteria The learner can:	Indicative Delivery Content
3.1 explain the relevant features of the planned experience and its underlying values	<p>When establishing and maintaining a climate conducive to achieving specified learning outcomes, the learner must cover:</p> <p>two of the following types:</p> <ul style="list-style-type: none"> a participant <ul style="list-style-type: none"> 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: <ul style="list-style-type: none"> b role <ul style="list-style-type: none"> 1 learning facilitator 2 group process facilitator 3 task facilitator with three of the following types: <ul style="list-style-type: none"> c feelings <ul style="list-style-type: none"> 1 anxiety 2 anger 3 confusion 4 apathy 5 exhilaration

<p>3.2 establish own role with the group</p>	<p>When establishing and maintaining a climate conducive to achieving specified learning outcomes, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b role 1 learning facilitator 2 group process facilitator 3 task facilitator with three of the following types: c feelings 1 anxiety 2 anger 3 confusion 4 apathy 5 exhilaration</p>
<p>3.3 negotiate ground rules for behaviour</p>	<p>When establishing and maintaining a climate conducive to achieving specified learning outcomes, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b role 1 learning facilitator 2 group process facilitator 3 task facilitator with three of the following types: c feelings 1 anxiety 2 anger 3 confusion 4 apathy 5 exhilaration</p>

<p>3.4 respond sensitively to feelings and values expressed by the participants</p>	<p>When establishing and maintaining a climate conducive to achieving specified learning outcomes, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b role 1 learning facilitator 2 group process facilitator 3 task facilitator with three of the following types: c feelings 1 anxiety 2 anger 3 confusion 4 apathy 5 exhilaration</p>
<p>3.5 encourage participants to share responsibility for their own individual and group learning</p>	<p>When establishing and maintaining a climate conducive to achieving specified learning outcomes, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b role 1 learning facilitator 2 group process facilitator 3 task facilitator with three of the following types: c feelings 1 anxiety 2 anger 3 confusion 4 apathy 5 exhilaration</p>

<p>3.6 work with and influence group dynamics in ways that support learning</p>	<p>When establishing and maintaining a climate conducive to achieving specified learning outcomes, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b role 1 learning facilitator 2 group process facilitator 3 task facilitator with three of the following types: c feelings 1 anxiety 2 anger 3 confusion 4 apathy 5 exhilaration</p>
<p>3.7 acknowledge achievement</p>	<p>When establishing and maintaining a climate conducive to achieving specified learning outcomes, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b role 1 learning facilitator 2 group process facilitator 3 task facilitator with three of the following types: c feelings 1 anxiety 2 anger 3 confusion 4 apathy 5 exhilaration</p>

Learning Outcome: 4. know how to facilitate participants' individual learning and group development

<p>Assessment Criteria</p>	<p>Indicative Delivery Content</p>
<p>The learner can:</p>	
<p>4.1 summarise the steps in group formation</p>	

4.2 explain how to diagnose the mood or other conditions of a group, and the development stage they are at	
4.3 compare and contrast the various strategies used for the encouragement of both individual and group development	
4.4 explain how to prioritise the differing needs of the group, the individual and the task	
4.5 explain how to get individuals to work near their adventure thresholds	
4.6 explain how role relationships with each participant may or should develop (helping, counter-depending, inter-depending, independence)	
4.7 justify the importance of allowing participants to make mistake or to fail	
4.8 explain how to recognise the limits of own competence in relation to the activity being facilitated	
4.9 compare and contrast the methods that can be employed to help individuals to explore their feelings	
4.10 explain how self-esteem is built up by giving individuals the experience of responding successfully to a series of increasingly demanding challenges	
4.11 explain how to recognise the vulnerability of participants who have a distorted self-image	
4.12 summarise the value of specific positive feedback in building self-esteem	

Learning Outcome: 5. be able to facilitate participants' individual and group development

Assessment Criteria

The learner can:

Indicative Delivery Content

<p>5.1 emphasise the importance of team work in achieving objectives</p>	<p>When facilitating participants' individual and group development, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b objectives 1 affective 2 cognitive 3 physical 4 team development with all of the following types: c methods of communication 1 verbal 2 tone of voice 3 body language</p>
<p>5.2 make sure at least one group member understands the objectives and parameters</p>	<p>When facilitating participants' individual and group development, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b objectives 1 affective 2 cognitive 3 physical 4 team development with all of the following types: c methods of communication 1 verbal 2 tone of voice 3 body language</p>

<p>5.8 encourage participants to think about how they may apply and test what they have learned to new situations</p>	<p>When facilitating participants' individual and group development, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b objectives 1 affective 2 cognitive 3 physical 4 team development with all of the following types: c methods of communication 1 verbal 2 tone of voice 3 body language</p>

Learning Outcome: 6. know how to manage the physical and emotional well-being of participants

Assessment Criteria	Indicative Delivery Content
The learner can:	
6.1 summarise relevant health and safety legislation, including that covering activity centres	
6.2 explain how to identify legislation covering working with children	
6.3 explain organisational procedures and requirements	
6.4 explain the principles of the duty of care	
6.5 define 'health' including the meaning of emotional/psychological health	
6.6 interpret activity centre licensing regulations and equipment manufacturers' guidelines	
6.7 summarise technical knowledge e.g. national governing body guidance relating to activities	
6.8 explain relevant operating and emergency procedures regarding safety	
6.9 compare and contrast the types of contingencies which are likely to occur: weather, accident and emergency, forced changes and how to plan for these	
6.10 explain incidence and the effect of adverse meteorological conditions	

Unit Title	Promote the transfer of learning from outdoor experiences

Learning Outcome: 1. know how to facilitate learning through individual and shared reflection on experience

Assessment Criteria The learner can:	Indicative Delivery Content
1.1 summarise the experiential learning cycle	
1.2 explain the importance of reflection to effective learning	
1.3 explain the meanings of participants' aims, objectives and goals	
1.4 summarise the types of opportunities which can be created or used for review and reflection	
1.5 explain how to create an effective listening environment and encourage participants to air their views	
1.6 explain how to analyse participants' experiences and provide a summary of this analysis	
1.7 explain how to establish the links between what has been learned in the outdoor environment and other aspects of the participants' lives	
1.8 explain the importance of recording the outcomes of reviews	

Learning Outcome: 2. be able to facilitate learning through individual and shared reflection on experience

Assessment Criteria The learner can:	Indicative Delivery Content

<p>2.1 establish a listening environment for the review</p>	<p>When facilitating learning through individual and shared reflection on experience, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 established groups with three of the following types: b learning 1 affective 2 cognitive 3 physical 4 team development with three of the following types: c areas of life 5 work 6 social 7 personal 8 home 9 education</p>

<p>2.6 clarify and reinforce key points to focus participants' attention on learning</p>	<p>When facilitating learning through individual and shared reflection on experience, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 established groups with three of the following types: b learning 1 affective 2 cognitive 3 physical 4 team development with three of the following types: c areas of life 5 work 6 social 7 personal 8 home 9 education</p>

Learning Outcome: 3. know how to help participants identify how they can transfer learning to other aspects of their lives

Assessment Criteria	Indicative Delivery Content
The learner can:	
3.1 compare and contrast the three methods of transfer, i.e. metaphor, direct and indirect	
3.2 explain the importance of assisting participants to transfer what they have learned to other contexts	
3.3 summarise potential and actual difficulties which participants may have with this process and how to identify the ones which apply to particular people	
3.4 explain how to recognise other individuals who could usefully contribute to the transfer process	
3.5 summarise the types of support which individuals may need when attempting to transfer learning	
3.6 summarise the types of advice, assistance and information about participants' learning needs which those providing support may need	
3.7 explain how to develop and progress action plans	
3.8 explain how to explain how the benefits of the experience can be maximised	
3.9 explain how to negotiate the types of resources, assistance and conditions to assist the participants	
3.10 explain how to achieve the commitment of participants to the identified learning outcomes	

Learning Outcome: 4. be able to help participants identify how they can transfer learning to other aspects of their lives

Assessment Criteria The learner can:	Indicative Delivery Content

<p>3.5 research and, if necessary, reconnoitre the location for the experience</p>	<p>When preparing for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups</p>
<p>3.6 Select and prepare equipment for the experience</p>	<p>When preparing for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups</p>

<p>3.7 identify the external influences and hazards relevant to the experience</p>	<p>When preparing for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups</p>
<p>3.8 make sure that the experience is within own competence to manage</p>	<p>When preparing for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups</p>
<p>3.9 make sure that effective but flexible safety parameters have been established</p>	<p>When preparing for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups</p>

Learning Outcome: 4. know how to prepare participants for adventurous experiences

Assessment Criteria	Indicative Delivery Content
The learner can:	
4.1 summarise the agreed safety parameters for the activity and why these must be clearly explained to the participants	
4.2 explain why it is important to encourage, not coerce, participants into adventurous activities	
4.3 explain the meaning of 'informed consent' in the context of adventurous activities	
4.4 justify the importance of encouraging participants to take control of their own experience and how to balance this with the safety parameters	
4.5 explain the importance of mutual support and trust within a group of participants and how to encourage this	
4.6 explain the importance of preparing participants to cope with unforeseen circumstances	
4.7 summarise how to encourage and prepare participants to use basic problem solving techniques	
4.8 explain how to agree responsibilities for assessing and helping to manage risk	
4.9 explain why it is important to demonstrate and include a strong environmental ethic	
4.10 explain why it is beneficial for participants to express feelings including those of apprehension, exploit them creatively, and reflect on their experience during and after any adventurous activity	

Learning Outcome: 5. be able to prepare participants for adventurous experiences

Assessment Criteria The learner can:	Indicative Delivery Content
5.1 communicate the aims and value of the experience to the participants	When preparing participants for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities with two of the following types d location 1 within the site boundary 2 in remote areas 3 overseas
5.2 enable the participants to help plan and manage the experience and develop a sense of ownership	When preparing participants for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities with two of the following types d location 1 within the site boundary 2 in remote areas 3 overseas

<p>5.3 communicate the safety parameters for the experience and the location</p>	<p>When preparing participants for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities with two of the following types d location 1 within the site boundary 2 in remote areas 3 overseas</p>
<p>5.4 encourage mutual trust, support and openness in the group, about concerns, apprehensions, strengths and weaknesses</p>	<p>When preparing participants for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities with two of the following types d location 1 within the site boundary 2 in remote areas 3 overseas</p>

<p>5.5 prepare the participants to cope with both anticipated and unforeseen circumstances, and to solve problems by themselves as far as possible</p>	<p>When preparing participants for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities with two of the following types d location 1 within the site boundary 2 in remote areas 3 overseas</p>
<p>5.6 agree with participants the responsibility of leaders and participants for reporting hazards, accidents and near-misses, and for assessing and managing risk</p>	<p>When preparing participants for adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities with two of the following types d location 1 within the site boundary 2 in remote areas 3 overseas</p>

5.7 ensure that participants understand and can follow the emergency procedures

When preparing participants for adventurous experiences, the learner must cover:

two of the following types:

a aims

- 1 recreation
- 2 education
- 3 personal, social and spiritual
- 4 development
- 5 potential for further development

with two of the following types:

b participant

- 1 adults
- 2 children and young people
- 3 groups whose members do not know
- 4 each other
- 5 established groups

with both of the following types:

c experience

- 1 single activities
- 2 complex multiple activities

with two of the following types

d location

- 1 within the site boundary
- 2 in remote areas
- 3 overseas

Learning Outcome: 6. know how to supervise and facilitate adventurous experiences

Assessment Criteria	Indicative Delivery Content
The learner can:	
6.1 compare and contrast styles of leadership which are appropriate to leading adventurous experiences	
6.2 explain the importance of carefully monitoring the level of risk throughout the experience and maintaining activities within agreed safety parameters, and how to do so	
6.3 explain the importance of keeping interventions to a minimum	
6.4 explain how to identify the situations in which it may be necessary to intervene during the experience	
6.5 explain how to identify the situations in which appropriate help will have to be called upon and the procedures to follow to do this	
6.6 explain the importance of delegating responsibility to participants and how to do so effectively	
6.7 explain the importance of reviewing the experience with the participants and the types of occurrences to note during the experience which could be used during later reviews	
6.8 summarise safety procedures and guidelines	
6.9 explain the importance of fostering judgement and self-confidence amongst participants	
6.10 summarise ranges of likely group behaviour and interaction	

Learning Outcome: 7. be able to supervise and facilitate adventurous experiences

Assessment Criteria The learner can:	Indicative Delivery Content
7.1 Continuously monitor the level of challenge and adventure in relation to participants' adventure thresholds and their ability to cope	When supervising and facilitating adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities
7.2 Adjust the level of challenge and adventure by measured interventions which maximise the likelihood of achieving the aims of the experience	When supervising and facilitating adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities

<p>7.3 Maintain the participants' attention to hazards, safety parameters and agreed responsibilities for the experience and location</p>	<p>When supervising and facilitating adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities</p>
<p>7.4 Encourage the noting of events and exchanges which may be used with participants both during and following the experience to get the best out of the experience</p>	<p>When supervising and facilitating adventurous experiences, the learner must cover: two of the following types: a aims 1 recreation 2 education 3 personal, social and spiritual 4 development 5 potential for further development with two of the following types: b participant 1 adults 2 children and young people 3 groups whose members do not know 4 each other 5 established groups with both of the following types: c experience 1 single activities 2 complex multiple activities</p>

Unit Title	Facilitate participants' investigation and understanding of the environment
Unit Aim	This unit covers the knowledge and competence that the learner needs to facilitate participants' investigation and understanding of the environment.
Unique Unit Number	D/503/0934
Unit Assessment Method(s)	<ul style="list-style-type: none"> - Coursework - Portfolio of Evidence
Assessment Specification	See assessment guidance.

Learning Outcome: 1. know how to prepare for environmental investigation

Assessment Criteria	Indicative Delivery Content
The learner can:	
1.1 explain the value of environmental awareness and understanding to participants and the types of investigations and activities which encourage this	
1.2 compare and contrast the relationship of the learning with relevant curricula and examination syllabi	
1.3 evaluate participants' different learning strengths and abilities and how these should be taken into account	
1.4 explain the importance of being aware of the aims and learning objectives of the exploration and how to identify these	
1.5 summarise the available options in the local area for environmental exploration	
1.6 explain the importance of identifying the participants' needs and how to do so	
1.7 explain how to choose an investigation relevant to the participants needs and learning objectives	
1.8 summarise the importance of health and safety considerations when leading environmental explorations and safety guidelines for the types of environments in which the candidate is working, e.g. farm land, rocky/uneven terrain, shore line etc	
1.9 explain safety guidelines relevant to any modes of transport which are being used, e.g. canoes, minibuses etc	
1.10 explain the importance of checking the details of the environmental exploration with a responsible colleague – senior colleague and/or the client responsible for the group	

Learning Outcome: 2. be able to prepare for environmental investigation

Assessment Criteria	Indicative Delivery Content
The learner can:	
2.1 identify the aims and learning objectives of the environmental investigation	<p>When preparing for environmental investigation, the learner must cover:</p> <p>two of the following types:</p> <ul style="list-style-type: none"> a participant <ul style="list-style-type: none"> 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: <ul style="list-style-type: none"> b safety parameters <ul style="list-style-type: none"> 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind
2.2 make sure the investigation makes the best use of the available options and meets the participants needs	<p>When preparing for environmental investigation, the learner must cover:</p> <p>two of the following types:</p> <ul style="list-style-type: none"> a participant <ul style="list-style-type: none"> 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: <ul style="list-style-type: none"> b safety parameters <ul style="list-style-type: none"> 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind
2.3 make sure the context and background for the investigation are appropriate to the desired learning	<p>When preparing for environmental investigation, the learner must cover:</p> <p>two of the following types:</p> <ul style="list-style-type: none"> a participant <ul style="list-style-type: none"> 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: <ul style="list-style-type: none"> b safety parameters <ul style="list-style-type: none"> 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind

<p>2.4 make sure there are safety parameters which will ensure the participants' safety and enable the agreed aims to be achieved</p>	<p>When preparing for environmental investigation, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: b safety parameters 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind</p>
<p>2.5 check and agree all aspects of the environmental investigation with a responsible person</p>	<p>When preparing for environmental investigation, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: b safety parameters 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind</p>

Learning Outcome: 3. know how to prepare participants for environmental investigation and understanding

Assessment Criteria The learner can:	Indicative Delivery Content
<p>3.1 explain how to identify the aims and objectives of the investigation</p>	
<p>3.2 evaluate own knowledge of the environment and an understanding of the context of the investigation</p>	
<p>3.3 explain why having sufficient principles for the investigation is important to facilitating understanding through effective learning</p>	

3.4 explain the importance of clarifying the focus and aims of the exploration with the participants and how to do so explain the importance of encouraging the participants to take ownership of the exploration for themselves and how to do so	
3.5 explain the importance of encouraging the participants to take ownership of the exploration for themselves and how to do so	
3.6 explain the importance of making clear the safety parameters for the exploration, what the key points are and how to emphasise these	
3.7 explain the importance of participants observing for themselves and sharing these observations with others in the group	
3.8 explain how to encourage participants to observe and what they should be looking for	
3.9 explain the importance of encouraging participants to ask questions of the candidate and of each other	
3.10 explain how to deal with questions informatively and positively	
3.11 explain how to identify other sources of information which the participants or candidate could use	

Learning Outcome: 4. be able to prepare participants for environmental investigation and understanding	
Assessment Criteria The learner can:	Indicative Delivery Content

<p>4.1 clarify the focus and aims of the environmental exploration with the participants</p>	<p>When preparing participants for environmental investigation and understanding, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: b safety parameters 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind</p>
<p>4.2 communicate the background and context for the investigation to the participants</p>	<p>When preparing participants for environmental investigation and understanding, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: b safety parameters 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind</p>
<p>4.3 actively promote the value of environmental awareness and understanding to the participants</p>	<p>When preparing participants for environmental investigation and understanding, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: b safety parameters 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind</p>

<p>4.4 actively encourage the participants to take ownership of the environmental investigation for themselves, whilst making clear the safety parameters</p>	<p>When preparing participants for environmental investigation and understanding, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: b safety parameters 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind</p>
<p>4.5 clearly emphasise the importance of observing the environment during the investigation and of sharing these observations with others</p>	<p>When preparing participants for environmental investigation and understanding, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: b safety parameters 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind</p>
<p>4.6 encourage the participants to ask questions and be able to deal with these questions positively and informatively</p>	<p>When preparing participants for environmental investigation and understanding, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with all of the following types: b safety parameters 1 physical boundaries 2 criteria for abandoning the experience 3 participants' safety rules 4 relevant guidelines for activities of this kind</p>

Learning Outcome: 5. know how to develop participants' investigation skills and understanding of the environment

Assessment Criteria The learner can:	Indicative Delivery Content
5.1 describe key features of the local environment, including flora and fauna, general geology, geomorphology, climate, soil types and land use	
5.2 explain how to interpret local sites and why they are interesting, why they are vulnerable and how to protect them	
5.3 compare and contrast different field work techniques and how these can be applied to a range of environments	
5.4 explain the importance of only intervening when this will support the agreed learning objectives	
5.5 explain how to make effective use of the prevailing conditions, unplanned events, the site being explored and the participants' abilities	
5.6 summarise the types of unplanned events and prevailing conditions which may occur	
5.7 explain the key environmental concepts which underpin the investigation	

Learning Outcome: 6. be able to develop participants' investigation skills and understanding of the environment

Assessment Criteria The learner can:	Indicative Delivery Content

<p>6.1 encourage the participants' environmental awareness and understanding in line with the planned aims and learning objectives</p>	<p>When developing participants' investigation skills and understanding of the environment, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b techniques covering 1 plants 2 animals 3 human geography 4 physical geography and two of the following types: c environment 1 urban 2 rural 3 upland 4 coastal 5 named habitats/ecosystems</p>
<p>6.2 make the participants aware of the range of fieldwork techniques and how they are used in differing environments</p>	<p>When developing participants' investigation skills and understanding of the environment, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b techniques covering 1 plants 2 animals 3 human geography 4 physical geography and two of the following types: c environment 1 urban 2 rural 3 upland 4 coastal 5 named habitats/ecosystems</p>

<p>6.3 manage the collection and collation of data</p>	<p>When developing participants' investigation skills and understanding of the environment, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b techniques covering 1 plants 2 animals 3 human geography 4 physical geography and two of the following types: c environment 1 urban 2 rural 3 upland 4 coastal 5 named habitats/ecosystems</p>
<p>6.4 assist the participants to present, analyse and interpret findings correctly</p>	<p>When developing participants' investigation skills and understanding of the environment, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b techniques covering 1 plants 2 animals 3 human geography 4 physical geography and two of the following types: c environment 1 urban 2 rural 3 upland 4 coastal 5 named habitats/ecosystems</p>

<p>6.5 intervene when this will support the learning objectives for the exploration</p>	<p>When developing participants' investigation skills and understanding of the environment, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b techniques covering 1 plants 2 animals 3 human geography 4 physical geography and two of the following types: c environment 1 urban 2 rural 3 upland 4 coastal 5 named habitats/ecosystems</p>
<p>6.6 make effective use of the prevailing conditions, unplanned events, the site and the participants' abilities</p>	<p>When developing participants' investigation skills and understanding of the environment, the learner must cover: two of the following types: a participant 1 adults 2 children and young people 3 groups whose members do not know each other 4 participants with particular needs in relation to the activity with two of the following types: b techniques covering 1 plants 2 animals 3 human geography 4 physical geography and two of the following types: c environment 1 urban 2 rural 3 upland 4 coastal 5 named habitats/ecosystems</p>

Qualification Conditions: Delivery and assessment requirements

To complete the delivery, assessment, and internal quality assurance of the qualification, providers will be required to adhere to the guidance set out in the Recognised Centre Handbook.

Qualification Approval Conditions: Workforce requirements

In addition to the workforce requirements stated in the Recognised Centre Handbook, the following qualification specific requirements must be met and evidenced.

Tutor(s):

For this qualification, the minimum requirements stated in the centre handbook do not apply. Centres must ensure that all workforce meet the requirements stated below.

The recognised centre is required to recruit and deploy approved tutors. The tutors are responsible for the delivery and assessment of the qualification. Tutors are required to:

- meet the technical criteria for the occupational area by having evidence of having worked in a relevant outdoor programme context for two years full time or equivalent E.g. outdoor programme planner, senior/chief instructor, outdoor centre manager

Assessor(s):

For this qualification, the minimum requirements stated in the centre handbook do not apply. Centres must ensure that all workforce meet the requirements stated below.

The recognised centre is required to recruit and deploy approved tutors. Assessors are responsible for the delivery and assessment of the qualification. Assessors are required to:

- meet the technical criteria for the occupational area by having evidence of having worked in a relevant outdoor programme context for two years full time or equivalent E.g. outdoor programme planner, senior/chief instructor, outdoor centre manager

Internal Verifier(s) and Quality Assurer(s):

For this qualification, the minimum requirements stated in the centre handbook do not apply. Centres must ensure that all workforce meet the requirements stated below.

The recognised centre is required to recruit and deploy approved internal quality assurers who are responsible for the internal quality assurance activities. Internal quality assurers are required to:

- meet the technical criteria for the occupational area by having evidence of having worked in a relevant outdoor programme context for two years full time or equivalent E.g. outdoor programme planner, senior/chief instructor, outdoor centre manager.

Additional Qualification Requirements

The minimum venue, facility and requirements stated in the centre handbook apply.

In addition further qualification specific requirements are: The recognised centre is required to have one or more delivery sites which contain facilities to support the programme of learning and assessment. These must comply with health and safety regulations and have in place appropriate access arrangements.

The recognised centre is required to have equipment in place to facilitate the full programme of learning and assessment which must comply with accepted health and safety practice.

The recognised centre must ensure that all learners and persons being coached wear appropriate sports apparel.

This qualification is regulated by Ofqual (600/1770/3), CCEA and QiW (C00/0364/2 - Designated).
